The Pacific Hardware Company have been putting on a new coat—that is a new coat of paint on the building outside to keep up appearance with the well stocked inside.

Captain David B. Adams, late of Marthas Vineyard, Mass., who came to take charge of the whaler Horatio, died in Honolulu, Sunday, March 22d. The Captain was forty-five years old.

The local in a previous issue stating the Paradise of the Pacific would be out with "increased attractions" was correct, for the issue is one of the most, if not the most interesting ever issued.

The Waianae Sugar Company received fifteen men and five women and the Hawaiian Agricultural Company seventeen men and seven women of the recent importation of Japanese laborers.

Saturday evening about 10 o'clock a fire started in the house of a native living on Vineyard street, near Nuuanu. A few pails of water were sufficient to put it out, with little or no damage done.

It was rumored yesterday that some of the mutinous crew of one of the whaling ship's cruising off port attempted to set the vessel on fire in order to get ashore. Their heinous attempts were discovered in time.

A race between a man and his cane occurred on Fort street yesterday evening about 6 o'clock. The last seen of the racers the two were neck to neck. Up to time of going to press we have not learned which won the race, but we predict a "dead heat."

Palm Sunday was observed by appropriate services at St. Andrew's Cathedral. At the two services of the Second Congregation the attendance was very large. Lord Raynham was present at the morning service, and the Rev. V. H. Kiteat, of Lahaina, preached an able discourse.

The Mohican sailed early Saturday morning for San Francisco. She is one of the last wooden ships of the old navy, and as the vessel was repaired six years ago, she will probably be refitted and kept on this station. Commander Shepard will be detached and another captain appointed upon arrival at San Francisco. It is stated that the Mohican can be expected to return in the early part of the summer.

The Bishop of Honolulu has so arranged the services in the Cathedral for the holy week that the Second Congregation have to take their Good Friday evening service at the Sunday hour, 6:30 p. m. instead of the usual Friday hour 7:30. The Bishop having taken possession of the Cathedral for every evening of the holy week prevents, unintentionally of course, the Second Congregation from practicing their Easter music, except at one another's houses.

A Whaling Trip.

A couple of whaling captains started out Wednesday afternoon for some enjoyment, stopping frequently for refreshments. In fact, these refreshments formed a principal part of the enjoyment. Later in the evening they became somewhat mixed as to who was who, and which one was the driver. A compromise was reached by each taking a line, one wanting to go star board, the other lar-board, but the horses didn't understand it that way. The consequence was that the horses got away with the captains, and were not to be found till late in the evening. The remains of the buggy were found next day on School street. Later in the day the captains made good in solid coin the damages to the rig.

Opium Maui Didn't Keep.

The Honolulu Customs officials learned several days ago that some suspicious looking freight, incorrectly invoiced, was received at Kahului, Maui, by the brigantine J. D. Spreckels. Officer Sheldon was sent to Kahului by Hon. A. S. Cleghorn to investigate. On Thursday of last week Mr. Sheldon "smelled a mice," which led to the finding of 700 pounds of opium. The officer returned with the drug to Honolulu Saturday morning by the Claudine. The opium was put in the room assigned for it at the Custom House.

SATURDAY'S SHOOT.

Some Good Scores at the First Monthly Match.

The first monthly rifle match of the Hawaiian Rifle Association was shot on Saturday at Kahauiki. Shooting commenced punctually at 2:30 p. m., and some very good scores were made in spite of the strong wind which prevailed during the afternoon. Mr. J. H. Fisher is to be congratulated on winning first honors, with a score of 89 points; J. Rothwell, second, with 86 in the first class. Mr. Fisher's fine shooting at 200 yards called forth hearty applause from his opponents and others present. The shooting in the first class averaged 81 per cent, for the whole match. In the second class Messrs. J. H. Soper and F. S. Dodge were winners at first and second honors respectively. The arrangements were not so complete as they might have been, as some of those entered were unable to remain until their turn came, owing to a scarcity of target. The next match will take place on Saturday, April 18th, unless otherwise decided upon, when it is anticipated that the number of entries will be largely increased.

The full scores are given below:

Y. M. C. A. Meeting.

The Y. M. C. A. held its regular monthly meeting at the hall Thursday evening, Mr. T. R. Walker, the President, presiding. The attendance was slim, but that did not affect the spirit of the meeting, for the few that were present managed to make it interesting. Mr. W. J. Forbes, the Recording Secretary, and Mr. S. D. Fuller, the General Secretary, each presented reports, which were adopted.

The President, by power vested upon him by the meeting, appointed the following gentlemen as a committee to prepare a list of standing committees to serve for the next year: J. B. Atherton, W. W. Hall and H. W. Peck. They are to report at the annual meeting to be held next month. Two new members were admitted into the Association. A collection of \$5 was taken up, and then the meeting adjourned.

A Future Entertainment.

The pupils of Kawaiahae Female Seminary propose to give a concert about the middle of next month, to aid in the purchase of a library. The present small collection of books being much worn and containing no works of reference for use in the school room.

The very generous patronage accorded their first entertainment by their friends the public of Honolulu, and the cordial approval with which that effort was rewarded, encouraged them to hope that a second concert will be as acceptable.

Prof. Henry Berger has kindly offered the services of the Royal Hawaiian String Band, and the concert will be under his direction.

We trust that the endeavor of these young girls to help themselves may meet with a hearty response from all those interested in the cultivation of this most beautiful of Hawaiian gifts.

Medals Awarded.

Friday evening a larger number than usual attended at the Gymnasium. After drill of the members present by the instructions of Mr. Lohide, the winners in the sports of Tuesday, March 17th, formed in line, when Mr. J. W. Jones in a few well chosen words addressed them on presentation of awards. Considerable enthusiasm was felt by the friends of the winners as Mr. Jones called each one forward and Mr. J. H. Fisher pinned on the badges. When all were presented with the exception of the juvenile badge, which is not yet finished, three rousing cheers were given to the winners, which was as heartily returned by them to the Association for their liberality.

Brain workers, and all who have to stand the severe mental strain consequent on intellectual employment, find Clements' Tonic invaluable. Holmes & Co. are the Agents for the Islands.

H. M. C. SOCIETY.

An Interesting Programme Carried Out.

The Hawaiian Mission Children's Society met at the residence of Dr. C. M. Hyde Saturday evening, and was well attended.

The literary and musical programmes were well gotten up and were enjoyed by all.

The exercises for the evening were commenced by a chorus sung by the young ladies from the Industrial Home. Mrs. W. W. Hall read an original poem, being a contribution from an absent cousin, "The Iao Valley." Miss C. A. Gillman read two extracts from a Boston paper, "A True Bostonian" and "Paper Opathy. Miss A. K. Wallman played a piano solo. Mr. W. O. Smith read an interesting paper, "Prisoners," drawing to mind the great responsibility that should be felt by the community at large in regard to their conduct and management, dwelling at length upon the importance of a change in the management of prisons, and showing what has been the result where a change has already been inaugurated.

Hon. S. B. Dole conducted the literary programme by reading first a paper, "Black Sheep," giving an account of a hunting expedition, and his experience with an oil-skin coat on the occasion. He then read a poem, "Consider the Lilies, How They Grow," concluding by reading Virgil's Prophecy of the Messiah, translated by Wingham.

The young ladies of the Industrial Home brought the exercises of the evening to a close by a vocal selection. The Corresponding Secretary then read extracts from absent members, which were attentively listened to.

The next meeting will be held at the residence of Hon. J. B. Atherton.

The Great Register.

The bids made for printing and binding the Great Register of Voters of this Kingdom were opened in the Interior Office on Friday afternoon, and found to be as follows:

Press Pub'g. Co. \$4,577
R. Grieve 3,500
Hawaiian Gazette Co. 2,995
Elele Pub'g. Co. 2,677

The manager of the latter company has declined to undertake the contract after ascertaining that he was unable to handle so large a job, and the GAZETTE Company will do the work, they having the only office here possessing the facilities demanded for executing orders of this kind within the time specified.

The bid calls for the printing and binding of 150 large volumes and 2,850 covered pamphlets, containing the names, residences, etc., of over 15,000 voters, the Noble and Representative voters being in separate books. The whole work requires the ruling, printing and binding of over 150,000 pages of flat cap paper. This is probably the largest job of printing that has ever been given out to be executed here within the short space of five months.

Hawaii's Future University.

The Kamehameha Schools are now working successfully and progressively, realizing more and more fully the noble design of their founder, Mrs. B. P. Bishop. The machine shop, under Mr. Davis' management, is doing most excellent work, and visitors will find it one of the most interesting sights in Honolulu. Mr. Thompson in the carpenter shop is preparing some specimens of joining for the Chicago exhibition. The native woods furnish most valuable material for joiner's work. Mr. Anderson, the newly arrived teacher, a recent graduate of the Oswego Normal School, is developing noteworthy aptitude for his position. The Trustees are considering the expediency of lighting all the buildings and grounds with electricity. Mr. Lockwood, electrician for E. O. Hall & Son, is busy making the needful estimates. The Bishop Museum is nearly finished, and the exquisite cabinet work for the doors and cases is a matter of constant admiration to all who visit the building.

Well Chosen.

The Oahu Railway and Land Co. have appointed Mr. Henry E. Cooper General Agent for the sale of its lands. The increase in the company's business necessitated the selection of some one to take charge of the land sales. It will be the policy of the management to sell the property on its merits and not introduce the "boom" feature. A graduated price list has been made of the lots in Pearl City, and intending purchasers will be shown the property free of charge. Sub-agents will be appointed at different points on the Coast and the property will be fully advertised there. Mr. O. A. Stevens will be associated with Mr. Cooper in the business; their office being at the corner of Fort and Merchant streets.

Latest From the Volcano.

The cones of Halemaumau have disappeared, leaving a large hole about 500 feet deep. No fire is to be seen except in the cracks on the crater's floor near the edge of the breakdown, the same as after the depression of '86. Slight earthquake shocks are felt at the Volcano, while in Kau they are becoming heavier. Still heavier may be expected.

Martha.

At the Opera House, Saturday evening, the New York Opera Company made rather a diversion from the operas previously given by them in the way of a light or semi-comic opera. The change was highly appreciated by those present. Parts of the opera Martha were quite difficult to render, especially a duet sang by Misses Mourri and Myers, the success of which was evident from the hearty applause following.

"The last rose of summer" was sung by Miss Mourri as few can sing it. At times the house was as quiet as if no one but the singers were present, so intent were the listeners to catch every note. At other times the applause was so great as nearly to deafen one. If the company continue in giving a more appreciated performance each time, they will leave at the expiration of their engagement with the best wishes of the Honolulu theatre-goers ever given any company that has performed in Honolulu.

Special Services.

This being Holy week, the Second Congregation of St. Andrew's Cathedral will hold a service of prayer, praise and meditation at noon Monday, Wednesday and Thursday. It will last twenty minutes, and the pastor, Rev. Alex. Mackintosh, invites all to be present.

On Good Friday there will be morning prayer at 9:45 a. m. o'clock, and Evensong at 6:45 p. m.

Easter Sunday opens with a celebration of the Holy Communion at 5:30 a. m. Morning prayer with sermon and Holy Communion at 9:30 a. m. Evensong with sermon at 6:30 p. m. At the two latter services special music will be sung by the large choir of ladies and gentlemen under the direction of Prof. Yarnley.

New School Buildings.

From the San Francisco office of the Hawaiian Agricultural and Commercial Company information was received at the Board of Education that the company has set apart, subject to the decision of Mr. Morrison, local superintendent, necessary sites for school purposes at Spreckelsville, Maui. This is what the people of that section have been wanting for some time, the school population being mostly Portuguese and Scandinavian. After the selection has been definitely made, the Board of Education will lose no time in putting up the necessary buildings.

The Illustrated Paper of Hawaii.

The March number of the Paradise of the Pacific is one of the best ever issued of that periodical. Lack of space in our Saturday's issue forbade a just notice of it. It contains, besides considerable other matter, two native songs, an interesting traditional account of cannibalism on Oahu, a communication relative to the volcano, and numerous pithy editorial comments, making a splendid descriptive journal for the foreign mail leaving to-day.
